vimron®

1. Visit the user manual

Before using the device, **carefully read** all warnings and cautions in the user's manual, which can be found at **www.vimron.com/manuals**

2. Charge your device

The first **charge** may take **3 hours**. If the device is fully charged, the **battery symbol goes out**.

3. Create an account and turn on the device

Visit **app.vimron.com** and register using the **"Create your account"** button. **Always turn on the device by pressing SOS for 5 seconds outside** or near a window with a view of the sky and satellites. **It may take several minutes** to receive satellites and log in to the network.

4. Place the device

Place the device or attach it to your **"Assets"**. Log in to the Vimron IoT Platform, select **"Create Asset"** and track its location in the **"Map"**. For notification of various events, select **"Create Alarms"**.
